Of Blood-letting, and ſome other Phyſical Obſervations.

IN Youth let Blood from the change to the firſt quarter; in middle-age, from the firſt quarter to the full: in Elder years from the full to the laſt quart. in Old-age, from the laſt quarter to the change. But know, that under the Age of 14 and above the Age of 56 it is not good to bleed at all.

Again, in the Canicular, or Dog-days, 'tis very hurtful to take any Phyſick at all, unleſs there be great need, and indeed Neceſſity hath no Law; wherefore in ſuch a caſe, the Diſeaſe being deſperate, the Cure muſt be ventur'd.

Take a Purgation when the Moon is in Trine, or Sextile Aſpect with Venus, decreaſing in any of theſe three Signs, *Cancer*, *Scorpio*, or *Piſces*, and it will be ſure to work the better, becauſe when a moiſt Planet in a moiſt Sign hath ſuch an aſpect, the humours in the Body are then ſtirred up and down, and ſo the better purged out; wherefore in this caſe, it cannot be amiſs to prepare humours by ſomething that is laxative, and let this be done whilſt the moon is either in *Gemini*, *Libra*, or *Aquarius*.

Take a Vomit, that it may work thorowly, when the Moon

Moon is in *Aries*, *Taurus*, or *Capricorn*: and know that the aſpects of the Moon with *Saturn*, or *Mars*, or the Moon in *Leo*, ought to be eſchewed in the taking of Medicines. Finally, if neceſſity urge no haſte, theſe Obſervations are expedient; for 'tis a plain truth, that the change of weather upon differing Aſpects doth greatly change and alter mens Bodies
